

The image shows a Windows Command Prompt window titled "Cmder" with two tabs: "1. laravel-course[*]" and "2. laravel-course". The prompt is at the directory "C:\laragon\www\laravel-course". The user has entered the command "code ." which opens a code editor. Subsequently, the user runs "php artisan make:model Author --migration", resulting in the output "Model created successfully." and "Created Migration: 2019_09_19_083538_create_authors_table". Then, the user runs "php artisan make:model Profile --migration", resulting in "Model created successfully." and "Created Migration: 2019_09_19_083839_create_profiles_table". The prompt is currently at "C:\laragon\www\laravel-course" with a cursor on a new line.

```
C:\laragon\www\laravel-course
λ code .

C:\laragon\www\laravel-course
λ php artisan make:model Author --migration
Model created successfully.
Created Migration: 2019_09_19_083538_create_authors_table

C:\laragon\www\laravel-course
λ php artisan make:model Profile --migration
Model created successfully.
Created Migration: 2019_09_19_083839_create_profiles_table

C:\laragon\www\laravel-course
λ |
```

At the bottom of the image, there is a video player interface. It includes a play button, a progress bar with a slider, and a timestamp showing "04:54" and "09:29". To the right of the progress bar is a label "Activer Windows". The Windows taskbar is visible at the very bottom, showing various application icons and the system clock.

The image is a screenshot of a video player interface. The main content area is a dark terminal window titled 'Cmder' with two tabs: '1. laravel-course[*]' and '2. laravel-course'. The terminal displays the following PHP code and its output:

```
>>> $comment = new Comment()  
=> App\Comment {#3032}  
>>> $comment->content="my comment"  
=> "my comment"  
>>> $comment->post_id=6  
=> 6  
>>> $comment->save()
```

On the right side of the terminal window, there are two floating icons: a gear icon for settings and a speech bubble icon for chat. At the bottom of the video player, there is a progress bar with a red playhead at 07:06 out of 07:41. To the right of the progress bar are icons for volume, full screen, and a list of active windows. The Windows taskbar is visible at the very bottom of the screen.

```
